James is Manager of the Farm Business Management area of Pinion Advisory, which includes advisory boards and benchmarking oversight. He possesses a wide array of technical skills in farm business management (broadacre and mixed farm enterprise) as well as grain marketing, including derivative based advice.

James has experience in a multitude of roles, including project management of both internal and external projects and programs. This includes experience in workshop delivery and group facilitation across a wide range of geographic areas and technical topics. High value outcomes are enhanced with James' excellent rapport building and communication skills.

James seeks to create high quality outcomes and satisfaction for clients through the delivery of technical depth of thinking, yet simple and applied methods of implementation.

Areas of expertise

- Farm business management
- Crop and livestock production
- Grain marketing
